

GREEN POWER PROGRAM Enrollment Form

McMinnville Water & Light is offering its customers the option to purchase Green Power and contribute to the growth of renewable energy sources in the region. Green Power is an optional product for those customers who would like to pay a premium for environmentally preferred electricity.

McMinnville Water & Light offers two types of Green Power for purchase. They are Biomethane and Green Melded. The source of the Biomethane product is projects fueled by biomass or biogas. The Green Melded product may consist of a blend of wind, low impact hydro, solar or other non-biomethane renewable generation resource.

If you would like to enroll in the Green Power program, please complete the form below and return it to the MW&L office.

Customer Name: _____

MW&L Account Number: _____

Address: _____

Phone Number: _____

Please select the Green Power product you would like to purchase and indicate the number of 100 kWh blocks you would like to purchase per month.

BIOMETHANE

I wish to purchase _____ 100 kWh block(s) per month, at \$1.50 per block

GREEN MELDED

I wish to purchase _____ 100 kWh block(s) per month, at \$1.50 per block

I choose to sign up for McMinnville Water & Light's Green Power program. I understand that the Green Power purchase is in addition to my regular monthly electric bill and in accordance with the current Green Power rate schedule, L-GRN-1, as exists or as modified by the MW&L Commission. Until I notify MW&L in writing, I agree to purchase Green Power each month in the quantity specified above.

Signature: _____

Date: _____

I choose to **cancel** my participation in McMinnville Water & Light's Green Power program.
