Conditions of Service (Generally to all service under the Schedule)

1. Customer facilities and installation must meet all applicable code, permitting and inspection requirements.
2. Customer will install, own and maintain at customer's expense the unit served under this schedule together with all related equipment (to include but not limited to lights, luminaires, photoelectric cells, signs, boosters, filters, bases, poles, arms, fixtures, conduits and wires) from the point of interconnection with the MW&L distribution system to the unit served ("the facility").
3. Electrical energy will normally be provided at 120/240 volts single phase.
4. Electrical energy to the facility is provided at a point of delivery.
5. The installation expense for MW&L facilities installed to provide service to the facility (customer's) shall be paid by the customer.
6. A Customer with less than five (5) units will be charged \$1.00 per month for processing.
7. MW&L may inspect the facility (customer's) to verify conditions of service.

8. Additional rules and regulations for this service are found in the *McMinnville Water & Light Customer Policies*.

Additional Conditions of Service (for Private Street Lights)

9. Private street light luminaires will be controlled by properly functioning and maintained photoelectric cells provided by the customer and available from dusk to dawn each day of the year.
10. Customer shall keep MW&L advised of the number of luminaires and not change wattage of a luminaire without MW&L approval. A changed luminaire will be subject to the applicable flat monthly (wattage) charge.
